STEGOCRAWL®

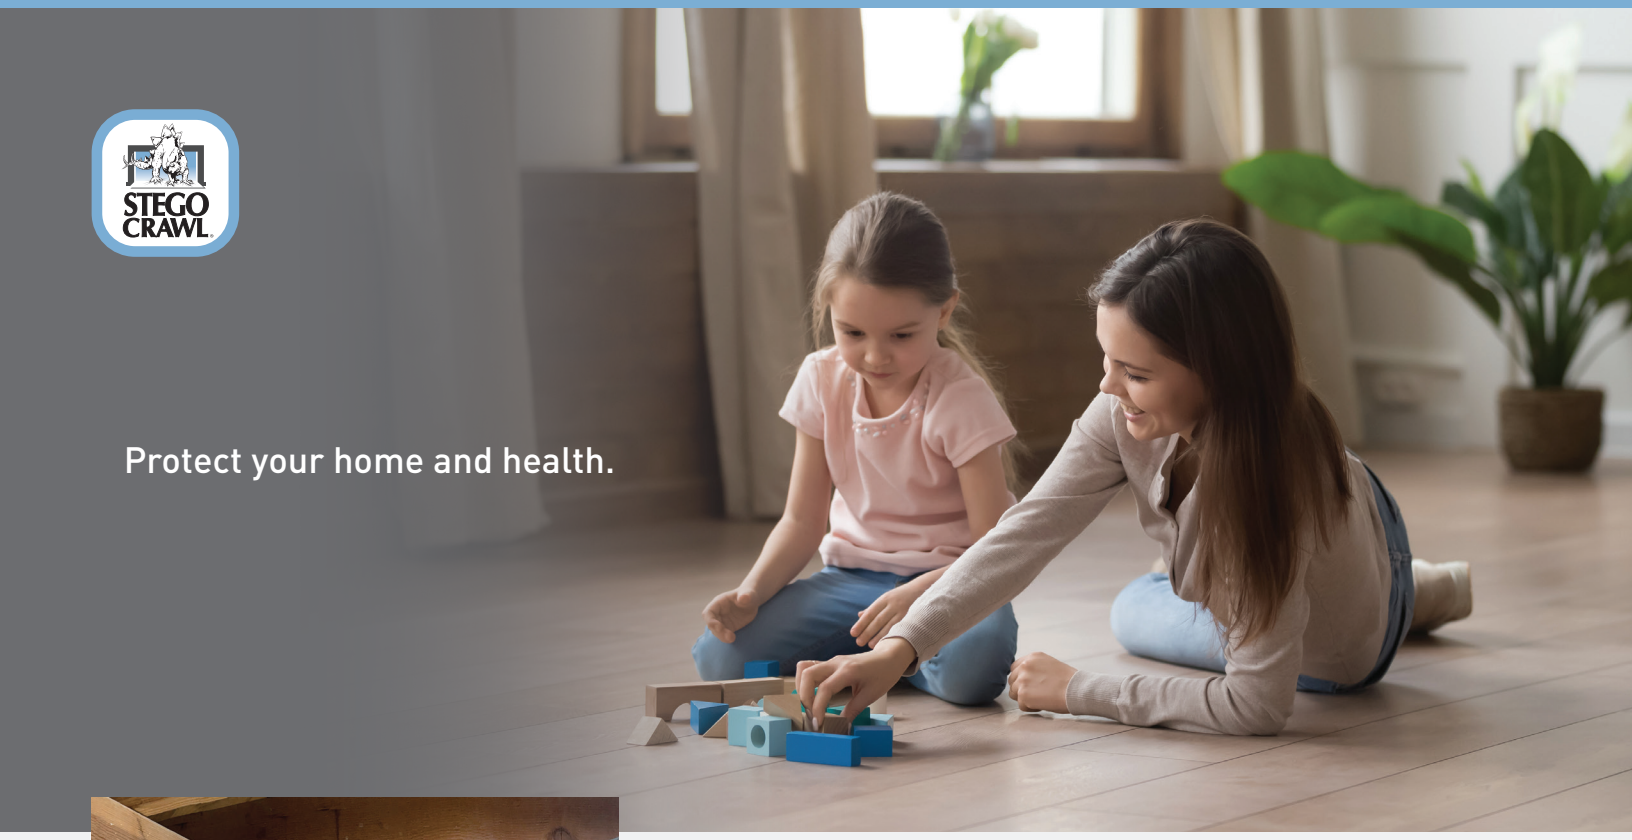

ELEVATE YOUR HOME'S COMFORT AND EFFICIENCY WITH STEGOCRAWL®

We equip crawl space **professionals** and **homeowners** with the confidence to create resilient, sustainable crawl spaces protected from unseen hazards like moisture vapor and soil gases using StegoCrawl—a fully integrated encapsulation system **designed to elevate human health, home performance, and provide long-lasting value.**

Protect your home and health.

What is StegoCrawl?

StegoCrawl is a **complete solution** for crawl space encapsulation designed to provide unmatched, permanent performance. The StegoCrawl system features StegoCrawl Wrap, a uniquely engineered moisture vapor barrier, as well as accessories suited for an integrated and efficient installation. StegoCrawl Wrap, made using only high-grade resin technology, is formulated for advanced vapor protection and durability in all crawl space conditions.

With an extremely low water vapor permeance, StegoCrawl Wrap *exceeds* building code requirements for a Class I vapor retarder to cover the ground and be sealed to foundation walls in crawl spaces. Unlike generic polyethylene sheeting or many traditional crawl space encapsulation options, StegoCrawl Wrap complies with ASTM E1745, a rigorous industry-established performance standard for vapor retarders and barriers.

Why should I use StegoCrawl?

For homeowners, builders, and crawl space professionals, StegoCrawl offers an encapsulation system specifically engineered with sustainable home performance, human health, and true value in mind.

StegoCrawl Wrap contains **zero VOCs** and is the first crawl space vapor barrier to publish a Health Product Declaration®, and be Home Innovation NGBS Green Certified for Resource Efficiency and Indoor Environmental Quality. Even more, StegoCrawl accessories have certified* low-VOC emissions, making it a uniquely safe building product system within the home.

Designed with optimal roll-sizes, dependable system accessories, and a white sheen, StegoCrawl maximizes installation efficiency and helps achieve the desirable clean, bright finished crawl space look. StegoCrawl Wrap also comes with a first-of-it's kind **Life of the Building™ Warranty**.

Whether a new or existing home, StegoCrawl can easily and cost-effectively help transform any crawl space into a dry, clean, comfortable, safe, and usable part of the home.

*Published HPDs, Red List Free letters, and VOC Emission certification documentation are accessible on our website or from your local Stego representative. Stego products and transparency documentation is also easily accessible on healthy product databases, like the mindful MATERIALS Portal.

Why can I trust StegoCrawl?

StegoCrawl comes to you from the manufacturers of Stego® Wrap, the industry leader in barriers and unrivaled support. Billions of square feet of Stego Wrap are protecting buildings of all shapes and sizes throughout the world.

Now homeowners can get the same protection below their homes that the leading architects and engineers trust for their most sensitive projects. Our home is often the largest financial investment that we will make in our lives, so it makes sense to make sure that our investment is appropriately protected from the ground up.

Homebuilders and crawl space professionals looking to go beyond the building code minimums and look out for their customers' well-being choose StegoCrawl Wrap for their crawl space encapsulation.

Why Choose STEGOCRAWL?

Moisture (water) is present at some depth in the soil beneath any new or existing home. In vapor form, moisture moves from "more" to "less" - higher concentration (partial water vapor pressure) to lower via diffusion. Moisture vapor and soil-gases (such as radon) can also move from the soil into the home via air (also called advection) - driven by an overall pressure differential. This means vapor naturally moves upward from the soil in the direction of and into the conditioned space of a home. Thus, taking the ground out of play in a crawl space is critical.

Even more, specifically choosing the vapor barrier based on its water vapor permeance for your crawl space can make a difference in how much moisture invades your crawl space - which can potentially lead to moisture-related issues (such as mold growth and damage to building materials) and higher energy costs.

A water vapor permeance comparison of common crawl space vapor barriers, puts StegoCrawl Wrap in a class of its own.

LEADING CRAWL SPACE VAPOR BARRIERS - PERMEANCE

	PERMEANCE gr/(ft²*hr*in-Hg)	ANNUAL LIQUID WATER-EQUIVALENT TRANSMISSION OF WATER VAPOR THROUGH ~1,300 FT²
StegoCrawl Wrap 15-Mil	<0.01	6.7 Cups
20-Mil Scrim Reinforced*	0.022	14.7 Cups
12-Mil Scrim Reinforced*	0.023	15.4 Cups
3-Mil Scrim Reinforced*	0.045	30 Cups
Generic 6-Mil Poly Sheeting	≤0.1**	~66.8 Cups

* Results are based on "Dura-Skrim®" and "Rufco®" brands.
** Based on code definition of a Class 1 Vapor Retarder (2021 IRC R702.7) reference for Crawl Space Vapor Retarders (IRC R408.3)

Compared to generic poly sheeting, StegoCrawl Wrap not only provides upwards of 90% improved moisture vapor protection, but also provides superior strength and long-term performance in crawl spaces.

StegoCrawl Crawl Space Encapsulation

- ✓ Made from virgin, prime, polyolefin resins – critical for effective crawl space moisture vapor protection
- ✓ Has exceptional long-term tear and puncture strength
- ✓ Is ASTM E1745 compliant and meets ANSI/ AARST Radon Standards for crawl spaces

Generic Poly Plastic

- ✗ Made from low-grade resins – offers inadequate permeance protection and easily tears during installation
- ✗ Made with recycled content is more susceptible to deterioration over time
- ✗ Does not test to ASTM E1745 referenced in ANSI/ AARST Radon Standards for crawl spaces

The STEGOCRAWL **ADVANTAGE**

Peace of Mind

Moisture vapor protection from the ground up with a first-of-its kind **Life of the Building™ Warranty**.

Warranty available online at www.stegoindustries.com/legal

Energy Efficiency and Savings

Less available moisture for your home's HVAC system or crawl space dehumidifier to contend with.

Healthier Home

Improved indoor air quality (IAQ) by helping reduce the migration of soil contaminants and moisture-induced mold and mildew growth.

Protect Building Components

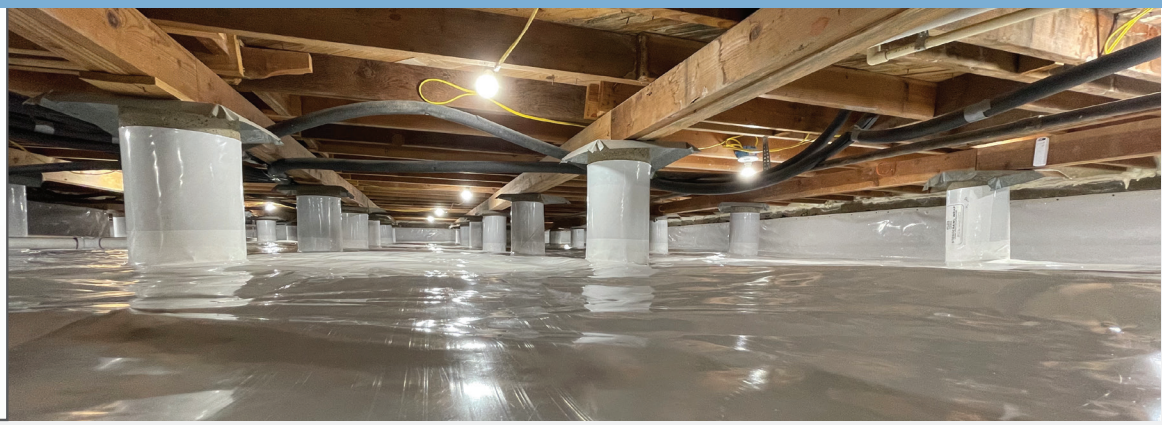

Without proper crawl space moisture protection, it is possible to have damage to other building components, like wood framing, flooring, HVAC equipment, and insulation.

Radon Gas Protection

A high-performance soil-gas retarder component of an effective radon mitigation system can help prevent the gas from entering the home.

STEGOCRAWL Available in 15-Mil, 10-Mil or 6-Mil thickness.

StegoCrawl gives the homeowner and professionals options to choose what best suits budget and project performance needs.

MOST POPULAR

StegoCrawl® Wrap 15-Mil Vapor Barrier

UNRIVALED MOISTURE VAPOR PROTECTION AND DURABILITY

StegoCrawl Wrap 15-Mil Vapor Barrier is an innovative, multi-layer liner designed to provide unrivaled performance even in the most unforgiving crawl space conditions. It is specifically engineered with an extremely low water vapor permeance and enhanced push through strength across the entire membrane (rendering string reinforcement unnecessary). This makes StegoCrawl Wrap 15-Mil Vapor Barrier a uniquely premium and cost-effective solution, even compared to thicker, string-reinforced products.

- **Roll Size: 5' x 200' and 14' x 100'**
  - Also: 5' x 150' – no crease, lay flat roll*
- **Clean, white color to brighten a crawl space**
- **Thoughtfully designed roll size options for ground cover and perimeter wall**
- **Lighter weight rolls for ease of installation**
- **Extremely low water vapor barrier permeance**
- **Increased push-through protection to resist punctures and tears**
- **Class I Vapor Retarder**
- **Zero VOCs**
- **Class A Fire Rated**
- **Life of the Building™ Warranty**
- **Made in the USA with US and Global Materials**
- **No odor**

StegoCrawl Wrap 15-Mil Vapor Barrier is our most popular choice for crawl space encapsulation among homeowners and professionals in both residential and commercial construction. Premium performance, roll size options, and overall value make it an ideal crawl space vapor barrier for all project types and sizes.

EXCEEDS ASTM E1745 · MADE IN THE USA · VOCs

StegoCrawl® Wrap 10-Mil Vapor Retarder

DURABLE AND ECONOMICAL MOISTURE VAPOR PROTECTION

StegoCrawl Wrap 10-Mil Vapor Retarder is an excellent choice when looking to go beyond minimum residential code requirements and guidelines. Engineered with high-strength and easy to handle rolls, the 1,200 ft² StegoCrawl Wrap 10-Mil provides outstanding overall value.

- **Roll Size: 12' x 100'**
- **Clean, white color to brighten a crawl space**
- **36" roll core for easy maneuverability in a crawl space**
- **Lightweight roll for ease of installation**
- **Low vapor retarder permeance**
- **Exceptional strength to resist punctures and tears**
- **Class I Vapor Retarder**
- **Zero VOCs**
- **Life of the Building™ Warranty**
- **Made in the USA with US and Global Materials**
- **No odor**

EXCEEDS ASTM E1745 · MADE IN THE USA · VOCs

StegoCrawl® Wrap 6-Mil Vapor Retarder

HIGHLY-AFFORDABLE MOISTURE VAPOR PROTECTION

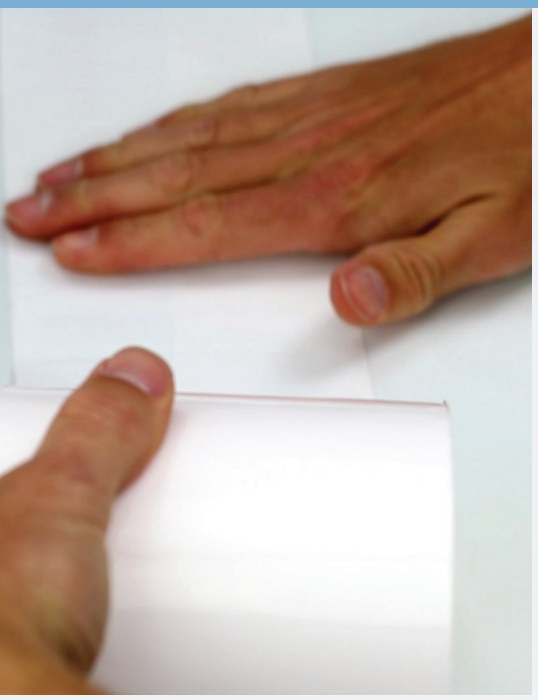

StegoCrawl Wrap 6-Mil Vapor Retarder exceeds the performance of generic 6-mil poly sheeting, which is easily damaged and subject to deterioration, but still at a comparable price point. StegoCrawl Wrap 6-Mil is strong enough for crawl space encapsulation, long-lasting, and provides a clean, professional look.

- **Roll Size: 12' x 100'**
- **Clean, white color to brighten a crawl space**
- **36" roll core for easier maneuverability in a crawl space**
- **Lightweight roll for ease of installation**
- **Class I Vapor Retarder**
- **Zero VOCs**
- **Life of the Building™ Warranty**
- **Made in the USA with US and Global Materials**
- **No odor**

ACCESSORIES

Complete Protection with StegoCrawl Accessories.

Specifically engineered for efficient and durable crawl space installation.

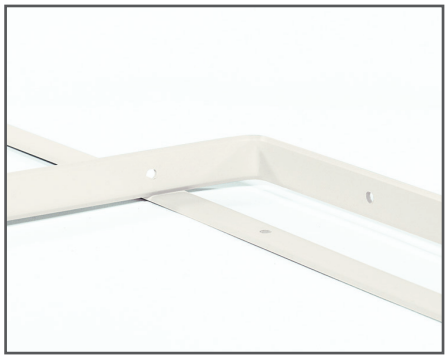

StegoCrawl® Tape

SEAL AND PATCH STEGOCRAWL WRAP

Ideal for sealing StegoCrawl seams and penetrations.

- Roll Size: 3.75" x 180'
- Extremely low permeance
- Great long-term adhesion
- 8 mils thick – superb durability
- White color complements the white StegoCrawl encapsulation system
- Low VOC Emissions
- Made in the USA with US and Global materials

StegoCrawl® Term Bar

HELPS IN MECHANICALLY SECURING STEGOCRAWL WRAP

Ideal for permanently securing StegoCrawl to concrete and masonry surfaces.

- Bar Size: 42" x 1.125"
- White color complements the white StegoCrawl encapsulation system
- Creates a pocket/lip for a bead of caulk to be used
- Pre-drilled holes approximately every 6" facilitate easy installation
- Trim to desired length
- Made in the USA

StegoTack® Tape

SEAL AND BOND STEGOCRAWL WRAP

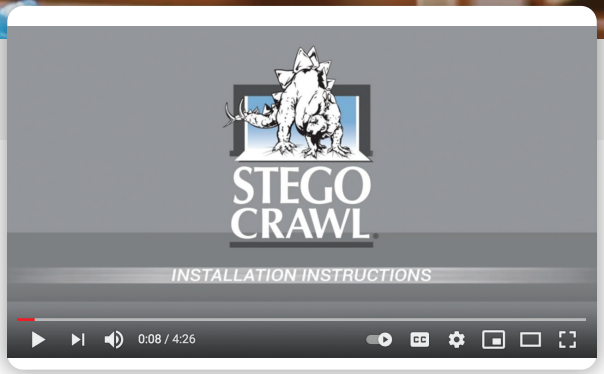

Ideal for sealing and bonding StegoCrawl to concrete, masonry, many foam insulation materials, metal, and other surfaces.

- Dimensions: 2" x 50'
- Color: Grey
- Made from a blend of synthetic rubber and resins
- Highly flexible and moldable
- Low VOC Emissions
- Made in the USA

PROFESSIONAL REVIEW

"There's products consumers can buy at your big-box hardware stores that just don't do the trick. They don't last. I want to supply the best products to my clients. That search led me to Stego."

Ben Ingalls
ALL COLORADO RADON

PROFESSIONAL REVIEW

"We have been working with Stego for a number of years and they have been a great company to work with! StegoCrawl is a highly recognizable and durable product. We have been happy with the end result we have achieved with the vapor barrier and tape and the quality stands the test of time. Would highly recommend Stego to anyone."

Kristin Grimsley
TENNESSEE RADON SERVICES

Product Purchased: StegoCrawl Wrap 15-Mil Crawl Space Vapor Barrier 5' x 150'

★★★★★

Vapor Barrier

"Vapor barrier was top quality. Several times I found sharp rock I thought I had removed before putting the barrier down. Didn't tear. Tough material."

Charles S
VERIFIED PURCHASER

Product Purchased: StegoCrawl Wrap 15-Mil Crawl Space Vapor Barrier 5' x 200'

★★★★★

The barrier was exceptional

"The barrier was exceptional and the customer service was phenomenal."

Gregg M
VERIFIED PURCHASER

Product Purchased: StegoCrawl Seam Tape 3.75" x 180'

★★★★★

Excellent tape

"The seam tape worked really well, great tack. I might get a roll to have around for general use."

Robert N
VERIFIED PURCHASER

Product Purchased: StegoCrawl Wrap 15-Mil Crawl Space Vapor Barrier 14' x 100'

★★★★★

5' Crawl Space Encapsulation

"Humidity went from 92% to 45% with dehumidifier. I started running dehumidifier at start of install of stego products and could not pull humidity below 70%. After wrap was complete, humidity dropped to 45% overnight!"

Gerald T
VERIFIED PURCHASER

Premium performance, a lifetime of value.™

The Choice is Clear and Critical

Let's face it; crawl spaces can be easy to ignore. But encapsulating a crawl space with an effective vapor barrier system is often a critical step in creating a dry and safe space that contributes to a home's overall energy efficiency, healthy indoor air quality, and long-term performance. Even more, doing it right at the first opportunity is important when considering ownership costs and impacts throughout the entire life of the home.

StegoCrawl offers an ideal crawl space encapsulation solution with unmatched vapor protection, lifetime durability, and transparently safe composition. An efficient, sustainable, and healthy home starts from the ground up. **Make StegoCrawl your trusted choice for crawl space encapsulation.**
