STEGO EXPANDS LIFE OF THE BUILDING WARRANTY INDUSTRY-FIRST PROGRAM WILL NOW COVER ALL BARRIER SOLUTIONS*

SAN CLEMENTE, Calif. – Stego Industries, LLC, the construction industry leader in below-slab barrier materials, announced Tuesday that it will expand its first-of-its-kind **Life of the Building™** warranty program.

The expansion of the limited warranty will now include:

- **DRAGO® WRAP** Vapor Intrusion Barrier for brownfield construction
- **PANGO® WRAP** Termite/Vapor Barrier for subterranean termite protection
- **STEGOCRAWL® WRAP** Vapor Barrier for crawl space encapsulation

“Stego is blazing new trails into new areas of below-slab protection – we plan to bring our reputation of zero claims of product failure to these new markets,” said Stego Vice President of Sales Jeremy Clark. “As we introduce ourselves to new stakeholders in these specialty areas of construction, we want them to know that Stego will back up every barrier we are associated with.”

Stego’s introduction of the Life of the Building warranty in August covered four lines of its flagship product STEGO® WRAP, from its 20-mil vapor barrier to its 10-mil Class C vapor retarder. In its 20-year history protecting the foundations of buildings, Stego has never had a claim of failure. No brand of below-slab vapor barrier or retarder has ever been backed up by a limited warranty for a building’s entire lifespan.

Each of these products is available through a distribution network across North America and internationally. Additionally, StegoCrawl Wrap is available for purchase directly through the Stego Industries web site.

“More markets, more ways to buy, same protection,” said Stego Industries President Michael R. Tucker. “Stego’s expansion in both scale and scope will mean healthier, more durable and more sustainable buildings, but will not come at the expense of quality.”

Each individual product line comes with detailed installation instruction and a line of accessories to ensure a proper installation according to standards and design specifications.

The Life of the Building limited warranty reinforces another “first” in the construction industry, and follows another Stego-only benefit for its customers: its unmatched **INSTALLATION SUPPORT PROGRAM** that provides access to Stego’s network of full-time experts to consult in the design of a below-slab water vapor protection system and certification of installation through on-site or virtual reviews. The program comes with a site review letter certifying the installation. No other vapor barrier company offers such a service, at no cost.

Project teams interested in more information about the Life of the Building warranty program or any of Stego’s product offerings can contact their local Stego representative.
