SECTION 1: IDENTIFICATION

Product Identifier
Product Name: Beast® Deck Foot

Intended Use of the Product:
Base section used to support Beast Screed system components

Product Form: Injection molded plastic component

Company Name, Address, and Telephone of the Responsible Party
Stego Industries, LLC
216 Avenida Fabricante #101
San Clemente, CA 92672 USA
Main Contact Number: (877) 464-7834

Emergency Telephone Number
Emergency Number: 1 (800) 424-9300 (24 Hrs.) CHEMTREC

SECTION 2: HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW
Non-hazardous at room temperatures. Hazardous only when heated. Solid; negligible odor.

OSHA Hazard Communication Standard
This product is not "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.*

Potential Health Effects:
Skin Contact: Prolonged contact is essentially nonirritating to skin. Mechanical injury only.
Skin Absorption: No adverse effects anticipated by skin absorption.
Eye Contact:
As supplied: irritant as a foreign body;
As used: Solid or dust may cause irritation or corneal injury due to mechanical action. Severe thermal hazard, only when heated, and vapors and/or aerosols, which may be formed at elevated temperatures, may be irritating to eyes and respiratory tract. Effects may include discomfort and redness.
Inhalation: No adverse effects are anticipated from single exposure to dust. Vapors/fumes released at highly elevated temperatures may cause respiratory irritation.
Ingestion: Very low toxicity if swallowed. Harmful effects not anticipated from swallowing small amounts. May cause choking if swallowed.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

<table>

Note - legal notice on page 6.
SECTION 4: FIRST AID MEASURES

**Eye Contact:** Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist. May cause injury due to mechanical action.

**Skin Contact:** Wash skin with plenty of water if irritation occurs. Seek first aid or medical attention as needed. DO NOT attempt to removed lodged material from skin. Removal could result in severe tissue damage; seek medical attention immediately.

**Inhalation/Ingestion:** If swallowed, seek medical attention. May cause gastrointestinal blockage. Do not give laxatives. Do not induce vomiting unless directed to do so by medical personnel.

**Notes to Physician:** If burn present, treat as any thermal burn, after decontamination. If lavage is performed, suggest endotracheal and/or esophageal control. Danger from lung aspiration must be weighed against toxicity when considering emptying the stomach. No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

**Emergency Personnel Protection:** First Aid responders should pay attention to self-protection and use the recommended protective clothing [chemical resistant gloves, splash protection]. If potential exposure exists refer to Section 8 for specific personal protective equipment.

SECTION 5: FIRE-FIGHTING MEASURES

**Extinguishing Media:** Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam.

**Fire Fighting:** Keep people away. Isolate fire and deny unnecessary entry. Soak thoroughly with water to cool and prevent re-ignition. If material is molten, do not apply direct water stream. Use fine water spray or foam. Cool surroundings with water to localize fire zone. Handheld dry chemical or carbon dioxide extinguishers may be used for small fires.

**Special Protective Equipment for Firefighters:** Wear positive-pressure self-contained breathing apparatus (SCBA) and protective firefighting clothing (includes firefighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from protected location or safe distance.

**Unusual Fire and Explosion Hazards:** Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate. Dense smoke is produced when product burns.

**Hazardous Combustion Products:** During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon dioxide, carbon monoxide.

SECTION 6: ACCIDENTAL RELEASE MEASURES

**Steps to be taken if Material is released:** Sweep up. Recover spilled material if possible. Collect in suitable and properly labeled containers. See Section 13, Disposal Considerations, for additional information.

**Personal Precautions:** Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause slipping hazard. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental Precautions:** Prevent from entering soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

*Continued... Note - legal notice on page 6.*
SECTION 7: HANDLING AND STORAGE

General Handling: No smoking, open flames or sources of ignition in handling and storage area. Good housekeeping and controlling of dusts are necessary for safe handling of product. Avoid breathing process fumes. Use with adequate ventilation. When appropriate, unique handling information for containers can be found on product label. Workers should be protected from the possibility of contact with molten resin. Do not get molten in eyes, on skin or clothing. Keep away from heat, sparks and flame. Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, electrically bond and ground equipment and do not permit dust to accumulate. Dust can be ignited by static discharge.

Storage: Store in cool, dry place. Store in accordance with good manufacturing practices.

Please review the remainder of the SDS and the relevant technical data sheets for storage and additional information. If any of the conditions cited above pose a problem for the typical installation of the Beast Screed system, please contact Stego Industries for additional information and solutions.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Occupational Exposure limits:

<table>
<thead>
<tr>
<th>Ingredient Name</th>
<th>Exposure Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Polypropylene (PP) Resin</td>
<td>ACGIHTLV (United States)</td>
</tr>
<tr>
<td>Particulates not otherwise specified</td>
<td>TWA: 10 mg/m³ 8 hours. Form: Inhalable Particulates not otherwise specified</td>
</tr>
<tr>
<td>TWA: 3 mg/m³ 8 hours. Form: Respirable fraction</td>
<td>OSHA PEL (United States)</td>
</tr>
<tr>
<td>Particulates not otherwise specified</td>
<td>TWA: 5mg/m³ 8 hours. Form: Respirable fraction Particulates not otherwise specified</td>
</tr>
<tr>
<td>TWA: 15 mg/m³ 8 hours. Form: Total</td>
<td></td>
</tr>
</tbody>
</table>

PERSONAL PROTECTION:

Eye /Face Protection: Use safety glasses. If there is a potential exposure to particles which could cause eye discomfort, wear chemical goggles. If exposure causes eye discomfort, use a full-face respirator.

Skin Protection: No precautions other than clean body-covering clothing should be needed. When handling hot material, a safety shower should be located in the immediate work area.

Hand Protection: Chemical protective gloves should not be needed when handling material. Consistent with general hygienic practice for any material, skin contact should be minimized. Use gloves to protect from mechanical injury. Selection of gloves will depend on the task. Use gloves with insulation for thermal protection, when needed.

Respiratory Protection: Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limits or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. Use an approved air-purifying respirator when vapors are generated at increased temperatures or when dust or mist is present. The following should be effective types of air-purifying respirators: When dust/mist are present use a/an Particulate filter. When combinations of vapors, acids or dust/mist are present use a/an Organic Vapor Cartridge with a particulate pre-filter.

Ingestion: Use good personal hygiene practices. Do not consume or store food in work area. Wash hands before smoking or eating.

Continued...
**SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**  
*Continued...*

**Ventilation:** Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

- **Physical State:** Solid plastic
- **Appearance:** Solid, molded device
- **Color:** Grey
- **Odor:** Odorless to mild
- **Odor Threshold:** No test data available
- **Flash Point-Closed Cup:** Not applicable
- **Flammability (solid, gas):** No
- **Flammability Limits in Air:**  
  - **Lower:** Not applicable  
  - **Upper:** Not applicable
- **Vapor Density (air=1):** Not applicable
- **Specific Gravity (H2O):** 0.90 estimated
- **Freezing Point:** Not applicable
- **Melting Point:** 150°C - 170°C
- **Water Solubility (by weight):** Negligible
- **pH:** Not applicable
- **Autoignition Temperature:** >330°C
- **Vapor Pressure:** Not applicable
- **Boiling Point (760 mmHg):** No applicable
- **Decomposition Temperature:** >300°C
- **Partition Coefficient, n-:** No data available for this product
- **Octanol/water (log Pow):** No test data available
- **Evaporation Rate (Butyl Acetate):** Negligible
- **Kinematic Viscosity:** No test data available

**SECTION 10: STABILITY AND REACTIVITY**

**Stability:** Stable at normal conditions. See Storage, Section 7.

**Conditions to Avoid:** Avoid temperatures above 300°C (572 °F). Exposure to elevated temperatures can cause product to decompose.

**Incompatible Materials:** Not known.

**Hazardous Polymerization:** Will not occur.

**Thermal Decomposition:** Decomposition products depend upon temperature, air supply and the presence of other materials. Processing may release fumes and other decomposition products. At temperatures exceeding melt temperatures, polymer fragments can be released. Fumes can be irritating. Decomposition products can include and are not limited to: Combustible gases.

*Note - legal notice on page 6.*
SECTION 11: TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS/SYMPTOMS

Acute Toxicity

Ingestion: Data not available
LD50/oral/rat: Data not available
Skin Absorption: Exposure to dusts may cause eye irritation
LD50/dermal/rabbit: Data not available
Repeated Dose Toxicity: Additives are encapsulated in the product and are not expected to be released under normal processing conditions or foreseeable emergency.

Chronic Toxicity

Chronic Toxicity and Carcinogenicity: No relevant information found.
Developmental Toxicity: No relevant information found.
Reproductive Toxicity: No relevant information found.
Genetic Toxicity: No relevant information found.

SECTION 12: ECOLOGICAL INFORMATION

Movement & Partitioning: No bio concentration of the polymeric component is expected because of its high molecular weight. In the terrestrial environment, material is expected to remain in the soil. In the aquatic environment, material will sink and remain in the sediment.

Persistence and Degradability: Data not available

Ecotoxicity: Not expected to be acutely toxic, but material in pellet or bead form may mechanically cause adverse effects if ingested by waterfowl or aquatic life.

SECTION 13: DISPOSAL CONSIDERATIONS

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. We (Stego) have no control over the management practices of parties handling this product. The information presented here pertains only to the products as shipped in its intended condition as described above. For unused and uncontaminated product, the preferred options include sending to a licensed, permitted: Recycler, reclaimer.

SECTION 14: TRANSPORT INFORMATION

US DOT Non-Bulk: NOT REGULATED
US DOT Bulk: NOT REGULATED
IMDG: NOT REGULATED
ICAO/IATA: NOT REGULATED

This Information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

Note - legal notice on page 6.
SECTION 15: REGULATORY INFORMATION

OSHA Hazard Communication Standard
This product is not a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.*

Superfund Amendments and Reauthorization Act of 1986 Title III [emergency Planning and Community Right to Know Act of 1986] Sections 313 This product contains no exceedance of chemical concentration that are subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

Immediate (Acute) Health Hazard - NO
Delayed (Chronic) Health Hazard - NO
Fire Hazard - YES
Reactive Hazard - NO
Sudden Release of Pressure Hazard – NO

SECTION 16: OTHER INFORMATION

Hazardous Materials Information System (U.S.A.)
This information is intended solely for the use of individuals trained in the HMIS system.

Health: 0  Flammability: 1  Physical Hazard: 0  Personal Protection: See section 8 of SDS

National Fire Protection Association (NFPA) Ratings
This Information is intended solely for the use of individuals trained in the NFPA system.

Health: 0  Fire: 1  Reactivity: 0

Recommended Uses and Restrictions:
We recommend that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact your sales or technical service representative.

*Per the OSHA Hazard Communication Standard (29 CFR 1910.1200), articles do not require the accompaniment of a Safety Data Sheet. An article is defined in the regulation as: “a manufactured item other than a fluid or a particle: (i) which is formed to a specific shape or design during manufacture; (ii) has end use function[s] dependent in whole or in part upon its shape or design during end use; and (iii) which does not release more than very small quantities, e.g., minute or trace amounts of hazardous chemical, and does not pose a physical hazard or health risk to employees, when used as recommended or under ordinary conditions.” Based on this definition, Beast Foot, Beast Screed Post, Beast Screed Adjustable Cap, Beast Deck Foot, Beast Hook, and Beast Form Stake are all considered by Stego Industries, LLC to be articles.

Disclaimer: The information contained herein only applies to the noted product. To the best of our knowledge, having been obtained through our suppliers or third parties, this information is accurate. We make no warranties, express or implied, concerning this information or the safe use of the noted product, and we disclaim liability from loss, damage, or other from the product’s use, handling, or storage. Users are responsible for verifying the fitness/suitable of the product for any purposes/applications and for confirming compliance with any/all relevant codes or regulations.
