STEGO® AIR BARRIER SAFETY DATA SHEET

Revision Date: N/A | Date of Issue: November 09, 2026 | Version Number: 1.0

SECTION 1: IDENTIFICATION

Product Identifier
Product Name: Stego Air Barrier

Intended Use of the Product
Self-adhered, vapor-permeable membrane for building envelope air and water control applications.

Company Name, Address, and Telephone of the Responsible Party
Stego Industries, LLC
216 Avenida Fabricante #101
San Clemente, CA 92672 USA
P: (877) 464-7834

Emergency Telephone Number
Emergency Number: 1 (800) 424-9300 (24 Hrs.) CHEMTREC

SECTION 2: HAZARDS IDENTIFICATION

GHS Classification: N/A.
GHS Label Elements: N/A.
Signal Word: N/A.
Hazard Statement: N/A.
Precautionary Statement: Refer to Sections 4-8 and 13 for prevention, storage, and disposal information.

OTHER HAZARDS
Hazards: Poisonous fumes, such as carbon monoxide, may be generated when burning.
Physical and Chemical Hazards: Under normal handling, there is no risk of fire, but the product is combustible in the presence of an ignition source.
Exposure Effects: Scrap or dust may scratch the surface of the eye. Fumes or vapors generated from melting product may irritate respiratory organs and eyes.
Important Symptoms: May be harmful if swallowed.
Environmental Effects: No known effect.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Classification / Composition: Mixture; self-adhesive membrane.
Chemical Family: Polypropylene.
Chemical Name / Formula: N/A.
Description: Sheet consisting of non-woven polypropylene fibers and non-hazardous adhesives based on an acrylic ester polymer.

Chemical Name	Concentration	CAS Number
Polypropylene	50-60%	Proprietary
Polyethylene-terephthalate	15-25%	Proprietary
Acrylic resin	15-25%	Proprietary
Hydrogenated rosin ester resin	1-10%	Proprietary

Continued...
Note - legal notice on page 4.

SECTION 4: FIRST AID MEASURES

If Inhaled: The product in its supplied form cannot be inhaled and has no hazardous properties by this route. If fumes or vapors generated from melting product are inhaled, blow the nose, gargle, and rinse the inside of the mouth and throat with water. Immediately move the affected person to fresh air and seek medical advice.
In Case of Skin Contact: Remove completely using soap. In case of contact with molten product, immediately cool and wash with cold water. Do not remove the molten material from the skin. Consult a physician if necessary.
In Case of Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes and seek medical advice.
If Swallowed: Induce vomiting and wash inside the mouth with water sufficiently. Seek medical advice from the doctor.
Most Important Effects and Symptoms: No known effects.
Protection for First-Aid Responders: No known effects.

5: FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Water spray, carbon dioxide, dry chemical powder.
Unsuitable Extinguishing Media: No information available.
Specific Hazards During Fire Fighting: Dark smoke, carbon monoxide, and other harmful gases may be generated by pyrolysis and poor combustion. Inhalation may be dangerous.
Specific Fire-Fighting Measures: Extinguish with water, dry chemical powder, or other suitable media.
Special Protective Equipment for Fire Fighters: In case of fire, wear self-contained breathing apparatus and protective clothing.

SECTION 6: ACCIDENTAL RELEASE MEASURES

N/A

SECTION 7: HANDLING AND STORAGE

Precautions for Safe Handling: Rolls are heavy. Use appropriate handling techniques.
Precautions for Safe Storage: Do not store near flame, heat, or strong oxidizing agents. Rolls must be stored vertically on a flat surface. Store in a clean, dry, ventilated environment, protected from rain and out of direct sunlight. Protect against physical damage and moisture.

Please review the remainder of the SDS and relevant technical data sheets for storage and additional information. If any of the conditions cited above pose a problem for the typical installation of the Stego Tape, please contact Stego Industries for additional information and solutions.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No relevant exposure limits.

PERSONAL PROTECTIVE EQUIPMENT
Respiratory Protection: Wear a dust mask if using in a dusty environment.
Hand Protection: Gloves can keep hands cleaner and free of adhesive.
Eye Protection: Safety glasses can protect eyes against mechanical contact with product or dust.
Skin and Body Protection: Sturdy footwear should be worn when handling rolls.

Continued...
Note - legal notice on page 4.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Shape	Roll form
Odor (Odor Threshold)	No odor
pH	N/A
Melting Point	No classification
Boiling Point	No classification
Initial Boiling Point	Unknown
Boiling Range	Unknown
Flash Point	No classification
Autogenous Ignition Temperature	Unknown
Flammability (Solid, Gas)	N/A
Lower Flammability or Explosive Limits	Dust explosion may be caused by static electricity where a large amount of dust is generated.
Upper Flammability or Explosive Limits	Same as lower flammability or explosive limits.
Vapor Pressure	N/A
Vapor Density	N/A
Evaporation Rate	N/A
Specific Gravity (Relative Density)	Unknown
Solubility	Insoluble
Partition Coefficient: n-Octanol/Water	Unknown
Decomposition Temperature	Unknown
Other Information	Unknown

SECTION 10: STABILITY AND REACTIVITY

Reactivity: No known issue.
Chemical Stability: Stable under the storage conditions described in Section 7.
Possibility of Hazardous Reactions: No known issue.
Conditions to Avoid: High temperature and flame.
Incompatible Materials: None known. See Section 7 for storage precautions regarding strong oxidizing agents.
Hazardous Decomposition Products: Dark smoke, carbon monoxide, and other harmful gases may be generated by pyrolysis.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity	No known toxic effects.
Skin Corrosion / Irritation	No known issues.
Serious Eye Damage / Eye Irritation	No known issues.
Respiratory / Skin Sensitization	No known issues.
Germ Cell Mutagenicity	No known issues.
Carcinogenicity	No known issues.
Reproductive Toxicity	No known issues.
Specific Target Organ Systemic Toxicity - Single Exposure	No known issues.
Specific Target Organ Systemic Toxicity - Repeated Exposure	No known issues.
Aspiration Hazard	No known issues.

Continued...
Note - legal notice on page 4.

Revision Date: N/A | Date of Issue: November 09, 2026 | Version Number: 1.0

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity - Fish	No known issues.
Ecotoxicity - Crustacea	No known issues.
Ecotoxicity - Algae	No known issues.
Persistence / Degradability	No known issues.
Bioaccumulative Potential	No known issues.
Mobility in Soil	No known issues.
Other Adverse Effects	No known issues.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste from Residues / Packaging: Remove any product from the cardboard casing. The cardboard box is recyclable.
Waste Disposal (recommendations based on product as supplied): Disposal must be in accordance with current applicable laws and regulations, and material characteristics at the time of disposal. It is recommended that all waste be analyzed for compliance with applicable laws and regulations governing proper recycling and/or disposal methods and reporting requirements. Consult your local or regional authorities.

SECTION 14: TRANSPORT INFORMATION

Not regulated per U.S. DOT, IATA or IMO.
For Transport Information, please contact Stego.

SECTION 15: REGULATORY INFORMATION

US Federal Regulations
Contact Stego Industries for more information.

311/312 Hazard Categories:
Fire Hazard: No **Pressure Hazard**: No **Reactivity Hazard**: No **Immediate Hazard**: No **Delayed Hazard**: No

State Regulations
Contact Stego Industries for more information.

Chemical Inventories
This product is an article as defined by TSCA regulations, and is exempt from TSCA Inventory listing requirements. Contact Stego Industries for more information.

International Regulations
Contact Stego Industries for more information.

This SDS has been prepared to meet the U.S. OSHA Hazard Communications Standard, 29 CFR 1910.1200.

SECTION 16: OTHER INFORMATION

The information contained in this data sheet applies only where the product is used for its stated purpose.

MEDICAL APPLICATION CAUTION: Do not use this material in medical applications involving permanent implantation in the human body or permanent contact with internal body fluids or tissues.

Disclaimer: The information contained herein only applies to the noted product. To the best of our knowledge, having been obtained through our suppliers or third parties, this information is accurate. We make no warranties, express or implied, concerning this information or the safe use of the noted product, and we disclaim liability from loss, damage, or other from the product's use, handling, or storage. Users are responsible for verifying the fitness/suitable of the product for any purposes/applications and for confirming compliance with any/all relevant codes or regulations.
